

Sustainability statement Corendon Hotels & Resorts

At Corendon Hotels & Resorts, we believe true hospitality means caring for our guests, our planet, and our people. Our mission is to create meaningful stays that support local communities, protect nature, and inspire both our guests and employees to contribute to a more sustainable future. That's why we embed sustainability into all our business processes, services, and products, whether in the Netherlands, Curaçao, or future destinations.

Our CSR approach is built on three strategic pillars:

Based on these pillars, we commit to the following principles:

Responsible and transparent business conduct

- We inform our guests, employees and suppliers that we operate in a socially responsible manner.
- We make transparent agreements with stakeholders about the quality of our products and services and how we monitor it.
- We support social and environmental initiatives through donations and sponsorships via the Corendon Foundation, partnerships with social organizations, and active employee volunteerism.
- Our Dutch hotels hold the Green Key Gold certification and we aim for all hotels worldwide to meet this standard in the near future.

Knowledge sharing and engagement

- We stay informed about sustainability developments and translate this into action.
- Our employees stay engaged through training and information sharing.
- Each hotel has a 'Green team' to bring sustainability to life on site.

Minimizing environmental impact

- We actively reduce our environmental footprint and food waste by using smart systems.
- Implementing energy efficient technologies.

Sustainable procurement and consumption

- We prefer products and services with certified environmental and/ or social labels.
- We work with local suppliers whenever possible to reduce emissions and support local economies.

Guest engagement in sustainability

- We raise guest awareness and provide opportunities to contribute through water conservation, recycling and refillable bottle use.
- We create hotel stays that promote environmental consciousness without compromising comfort.

Through this statement, we affirm our commitment to a future-proof hospitality sector where sustainability is a given, not an option.

&

Atilay Uslu

Director Corendon Hotels & Resorts
